### \$10,000 Raffle for 2015

Raffle Tickets for our annual raffle for the drawing, which will be held on **February 7, 2015**, have been sent home to the school families.

Families with one student attending Saint Joseph Catholic School must bring in at least \$150 through the sale of tickets and families with more than one child in the school must bring in at least \$200 through the sale of tickets. Families that do not return the mandatory sales amounts will be billed.

The number of tickets sent home is based on them being sold at \$25 each. **If you sell some or all of your tickets at 5 for \$100, you will need an additional ticket or two.**

### 2015-2016 Registration

It's time to start thinking about the 2015-2016 School Year. The schedule for registration has been moved up. We will be opening registration in February this year with an anticipated re-registration deadline of March 17.

*Please pay attention to information that is disseminated regarding registration as there will be some changes.*

### Current Road Construction

The current road construction on Port Malabar Boulevard is creating traffic chaos, not only on Port Malabar, but also up and down Babcock. Please keep this in mind and give yourself plenty of time when traveling to school both in the morning and at dismissal. According to the Public Information meeting held December 10, 2014, the construction is supposed to take 30 days.

The staff of Saint Joseph Catholic School would like to thank all of the families for all of the lovely gifts we received over the holidays.

*Email [january@st-joe.org](mailto:january@st-joe.org) on or before January 16, 2015 with the subject "I read the January Newsletter" for a FREE NUT day for your children. Please include your family name.*

Visit the

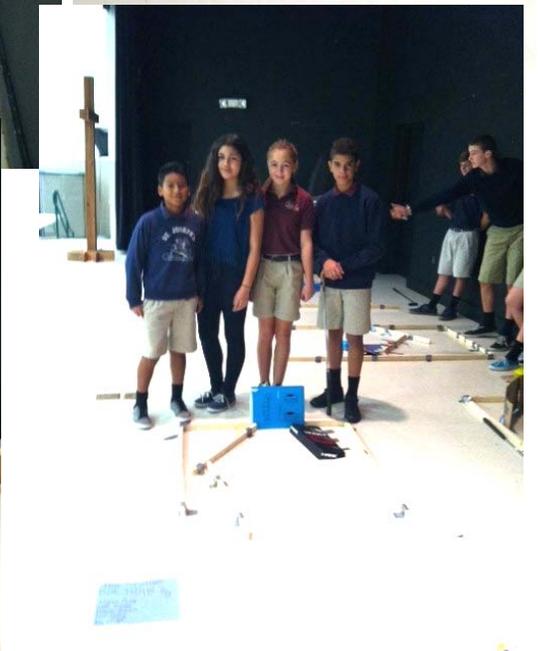

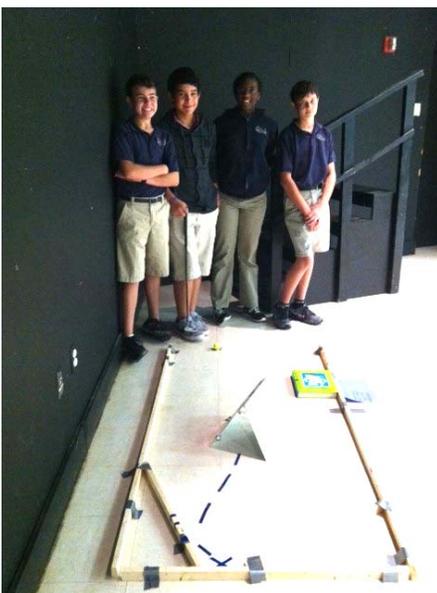

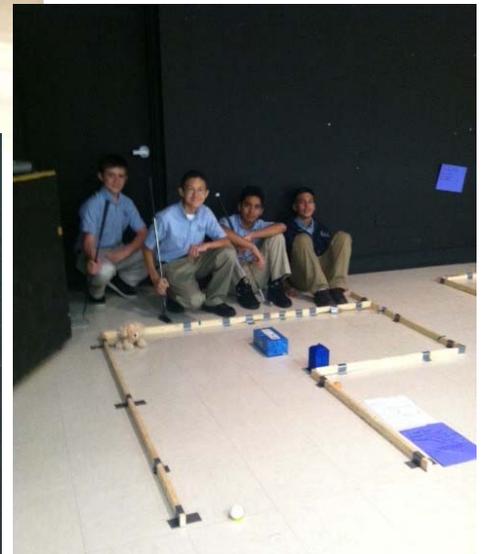

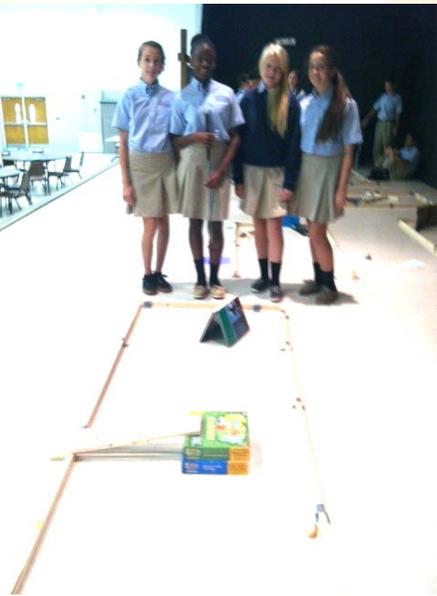

**KNIGHTS  
OF COLUMBUS**  
IN SERVICE TO ONE. IN SERVICE TO ALL.

on Babcock St. for dinner any Friday, tell them you are from St. Joseph School and 10% of your check will be donated to the school.

### News From Science Lab

The 8<sup>th</sup> grade Physical Science classes capped off the First Trimester with an exploration into the Law of Reflection and Energy Transfer. The assignment, titled "Hole in One", required students to design miniature golf holes. Their goal was to lay down a course where everyone could get a hole in one every time. This required them to measure angles and determine how the ball would "reflect" or bounce off the barriers of their hole. After completing the holes, each student was allowed to play the entire course. Hands on learning at its best!

**Mission Statement**

*Saint Joseph Catholic School offers pre-kindergarten through eighth grade students the high academic standards and curriculum of the Diocese of Orlando. We recognize each student as a unique individual created in the image of God. Our community welcomes, educates, and challenges children to become lifelong learners and followers of Jesus Christ.*

## Steam Expo

Saint Joseph Catholic School in Palm Bay presents STEAM Expo. STEAM is a great way to learn – combining Science, Technology, Engineering, Arts and Math. There are many ways to explore science beyond just an experiment. Students are allowed to research and design brochures, build models, and observe. STEAM allows students to use their strengths and interests to learn more about their natural world.

STEAM Expo will be held on Thursday, January 29<sup>th</sup> from 5 to 7 PM in the school cafeteria. Parents are invited to come and explore what our students have been learning in science this year. Students will be at their projects ready to demonstrate and teach.

STEAM Expo will be held over to Friday, January 30<sup>th</sup> from 10 AM to noon so that all students in the school can participate.

Students in Kindergarten through 8<sup>th</sup> grade have been exploring a wide variety of topics for this year’s STEAM Expo. Life Science projects include seeds, birds, native plants, and ecosystems. Earth Science projects include the water cycle, volcanoes, weather, and space. Our 8<sup>th</sup> graders will be showing off their Rube Goldberg type Machines to demonstrate the physical sciences of motion and energy transfer.

Science makes the world go ‘round! Come join us and explore our natural world with the students of Saint Joseph Catholic School.
